

Put Your Home Sleep Test Patient's **AT EASE**

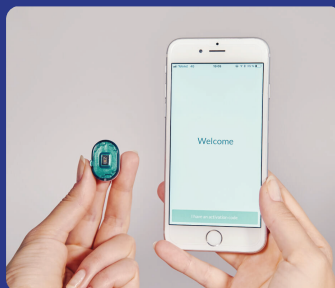

Introducing the world's
→ smallest ←
sleep apnea diagnostic tool

Meet the
NightOwl[®]
EZSLeP
zzzzzzzzzzzz
(actual size)

"Sleep Apnea diagnostics is now
available in one night at your fingertip"
(Also serves as a dual pulse oximeter)

- Records peripheral artery measurements, SPO₂ and actigraphy
- Smallest HST device on the market - no wires, no cords, no cannulas
- Protects patient's and community from COVID-19 transmission as device is disposable
- World's first multi-use disposable HST device with 100 recording hours, allowing for follow up efficacy testing
- Device connects and uploads via Bluetooth, cutting down turn around time and allows for faster therapy intervention
